## **Front Matter**

## **Summary Program**

### **Plenary Presentations**

- Space Medicine, Craig Fischer, M.D.
  - Habitability and Environmental Factors, Helen Lane, Ph.D.
  - NASA Medical Policy Office, Arnauld Nicogossian, M.D.  
(presented by Charles F. Sawin, Ph.D.)
  - Bioastronautics, Dave R. Williams, M.D.
  - Adaptation and Countermeasures, William H. Paloski, Ph.D.
  - National Space Biomedical Research Institute, Bobby R. Alford, M.D.
- (Presentations by Michael Long and Jeremy Sugarman, Ph.D. are not included)

### **Full Session Summaries and Abstracts (Each file includes a session program, session summary, and all session abstracts)**

- Behavior/Performance and Human Factors
- Biomass Production
- Bone/Muscle
- Cardiopulmonary
- Environmental Systems
- EVA/Air Revitalization
- General Technology
- Immunology/Infection/Air Contamination
- Neurophysiology
- Nutrition
- Radiation
- Sleep

### **Session Summaries and Abstracts (Each file includes a session program linked to a session summary and all session abstracts, all retrievable individually)**

- Behavior/Performance and Human Factors
- Biomass Production
- Bone/Muscle
- Cardiopulmonary
- Environmental Systems
- EVA/Air Revitalization
- General Technology
- Immunology/Infection/Air Contamination
- Neurophysiology

Nutrition  
Radiation  
Sleep
